## PROFILE

I am an IT student at ITB STIKOM Bali with a strong enthusiasm for website programming. I enjoy learning new technologies and applying them to web projects. With quick adaptability and a strong passion for learning, I am ready to support a team in developing useful web solutions while gaining professional experience through an internship.

---

## EDUCATION

### **SMP N 1 KUTA** **2016 - 2019**

Completed junior high school education with a solid academic foundation and strong social skills, while building the groundwork for pursuing higher levels of education.

### **SMK N 1 KUTA SELATAN** **2019 - 2022**

During school years, accustomed to interacting with diverse individuals, practicing communication skills, and developing self-improvisation to handle dynamic situations and various guest needs. This experience fostered discipline, teamwork, and problem-solving skills.

### **ITB STIKOM BALI** **2022- Present**

This level prepares me to develop and manage information systems and technology, including website programming, database management, computer networking, and system analysis.

---

## ORGANIZATIONAL EXPERIENCE

### **Festika 2023 - Steering Committee** **2023**

Responsible for developing event concepts, managing the event flow, and ensuring the rundown is executed as planned. Coordinated with other teams to maintain smooth operations and create the best experience for participants.

### **Kuliah Umum 2023 – Equipment Committee** **2023**

Managed event logistics and equipment needs, from preparation and on-site arrangements to post-event evaluation. Accustomed to working collaboratively within a team to ensure the smooth execution of academic events.

---

## PROJECTS

### **Simple Calculator**

Developed a command-line calculator application capable of performing basic arithmetic operations (addition, subtraction, multiplication, division).

Technologies: Python

### **To-Do List App**

Built a simple desktop application with a graphical user interface for managing daily tasks, including adding, editing, and deleting items.

Technologies: Python, Tkinter

### **Personal Portfolio Website**

Developed a personal website to showcase CV, skills, and programming projects with a clean and responsive design.

Technologies: HTML, CSS, JavaScript

### **Android App – “Property Sales” Listing Catalog**

Built a responsive Android app for property sales featuring a scrollable catalog of houses, apartments, and land plots. Designed structured property listings with images, descriptions, and pricing details, along with a “Contact Agent” button. Focused on clean UI/UX design, interactive components, and multi-resolution support using native Android technologies.

Technologies: Android Studio, XML, Java/Kotlin

---

## **CERTIFICATIONS**

### **IT Specialist Python Networking – Certiport**

**2025**

Demonstrated proficiency in Python, including data structures, data types, and loops, evidenced by passing a comprehensive exam.

### **Android Development Associate (ADA) – Certnexus**

**2025**

The Android Developer Associate Certification validates foundational skills required for entrylevel Android development. Passing this performance-based exam serves as evidence of competence in handling typical tasks performed in Android application development.

---

## **SKILLS**

### **Technical Skills**

- Programming Languages: Python, Java, JavaScript
- Database Management: MySQL
- Tools: Android Studio, Visual Studio Code
- Microsoft Office (Word, Excel, PowerPoint)
- Front-End Development (HTML, CSS, Bootstrap)

### **Soft Skills**

- Problem-Solving & Critical Thinking
- Communication & Team Collaboration
- Adaptability
- Time Management & Organizational Skills
- Attention to Detail
